| Total Basic Value | | | |
| Total Inclusive of GST/Taxes | | | |

This Operational Support for two years shall be for the entire components / items / infrastructure of DC under the RFP / Contract including the Support personnel deployed for the project. Bidder should ensure that Manpower resources required for Operations and Maintenance of ITI Data Center project should comply as per the RFP. In case there are changes in technology, (such as addition or Up-gradation of Hardware, Software, Tools, equipment, active or passive) DCO needs to provide the resources with suitable technical competencies in line with project requirements without any additional charges as and when required.

Please note: Operational expenses during operation phase (such as Diesel consumption {by DG-Set}, etc.) will be paid by the Client to DCO as per the actual usage/ consumption as per the prevailing market price. DCO shall integrate the energy meter (for electricity) as well as diesel consumption reading of DG Set with the BMS infrastructure for ensuring automatic information update regarding actual consumption/usage.
